

# Improvements to the Early Years Hive menu navigation

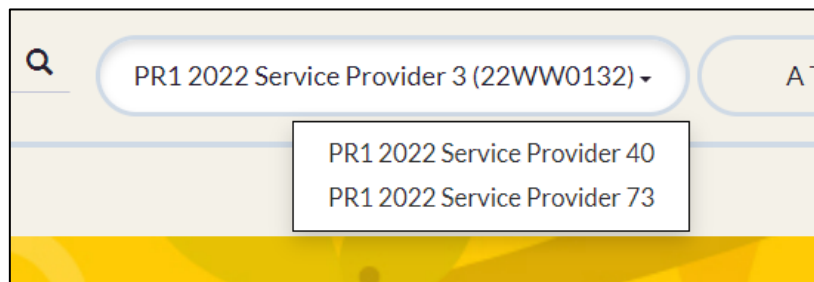

## Clearer section for portal user information

The updated User Profile section in the top-right corner of the Hive will display the information of the portal user.

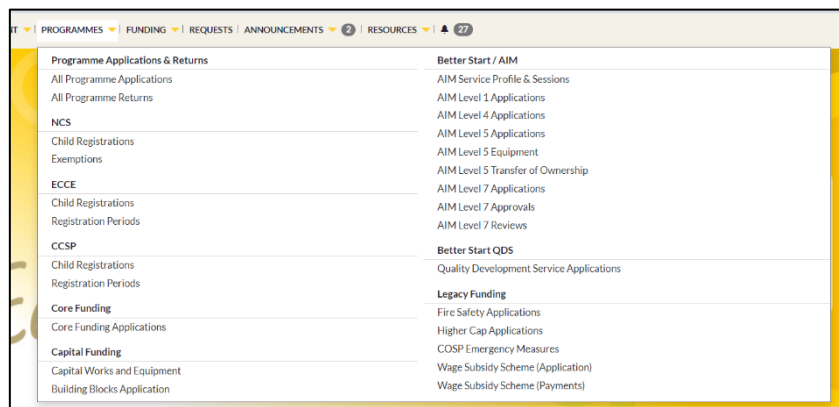

## Easier to switch between services in multi-service organisations

The service name and service reference number will now be displayed in an additional section in the top-right corner of the Hive. A new dropdown option here will allow multi-service organisations switch between their services' portals.

## All programme-related page available on the Programmes menu

The pages available under the updated Programmes menu are clearly grouped by the programme they relate to. This is an amalgamation of the pages that are currently available under the Programmes, Registrations and Applications menus.

## Reorganisation of the My Account menu

The updated My Account menu will have a clear distinction between the pages of the portal related to the service and the pages that relate to the organistaion.
